We found incomplete checks at our nuclear plants, Shimane No.1 and No.2* on March 2010.

Now, therefore, we are working on the investigation and the analysis of causes and considering the relapse prevention measures while checking equipments not appropriately checked.

Consequently, we can't indicate the forecast of income for FY2011 rationally at present, because it is unclear when those nuclear plants that have shutdown will be restart their operation.

We will inform you of the forecast when it becomes a situation in which the plan can be foreseen.

*Shimane No1. have shutdown from March 31, 2010 for the inspection.

Shimane No2. have shutdown from March 18, 2010 for the 16th periodic overhaul.

All non-empirical information above is projected based on facts available to company management at the time of the release of this document. Economic and other factors may cause actual performance to differ from projections.
