● Reasons for revisions

We announced our earnings forecasts for the fiscal year ending March 31, 2014, formulated in consideration for recent supply/demand situation under the assumption of the stoppage of Shimane Nuclear Power Plant until March 31, 2014, although we have not announced them for the reason that we could not formulate reasonable costs forecasts related to electrical power supply/demand.

The forecasts of operating revenues have been revised due to the anticipation such as the increase in electricity rate revenues with increases in electricity sales.

We have not yet decided the year-end dividends.
